

ONE-STORY BUSINESS BUILDING

General: The business building should be constructed in the central business district of the retail/commercial land-use area. One tactical feature included in the construction of this building is a maximum room size of approximately 41 square m (440 square ft). Roof access is provided via roof hatch. A window display area and counters are included. An electrical/communication room for power and network hardware shall be provided.

Design Details: See the Layout Details in the Appendix of this document.

Typical Configuration:

Size:	107 square m (1,152 square ft)
Occupancy:	None
Foundation:	Concrete slab on-grade with turned-down edges
Shell:	Reinforced Concrete Masonry Units (CMU)
Roof:	Flat roof with parapet walls and roof hatch
Doors:	Yes

Windows:	No glazing with reinforced sill
Interior Finishes:	None
HVAC:	None
Lighting:	Incandescent lighting in all rooms (approximately 30ft candles)
Lightning Protection:	None
Power:	120/240V single phase, 4-wire power entering the building under ground in rigid steel conduits
Telephone:	None
Data Communication:	Fiber optic and/or copper category 6 or better cabling for targetry control and video networking entering and leaving the building underground in rigid steel conduits
Cameras:	2
Target Power Outlets/Cable Jacks:	6
